

Training Event
Fundamentals of ERDAS Imagine I & II
Venue: OSL Training Centre, Upper Hill Nairobi
Dates: February 7th to 15th 2012
April 10th to 18th 2012
June 12th to 20th 2012

Overview

The first part of this training offers an introduction to the latest ERDAS Imagine Essentials and ERDAS Imagine Advantage software. It covers some basic concepts of Remote Sensing and GIS, providing a foundation in image processing and GIS. Image classification, orthorectification, mosaicking, reprojection, map production, image interpretation and change detection are presented.

The second part of the course builds upon the knowledge gained in Fundamentals of ERDAS Imagine I thus providing a more extensive foundation in image processing, GIS and the functionality of Imagine Professional. Additional concepts of Spatial modeling, Image classification, Radar image processing, Topographic analysis and using the GLT are presented.

Cost: (VAT Inclusive):

KES 68,000

10% Discount available for large groups (3 and above)

Who should attend?

This course is designed for those who would like to develop knowledge and experience in GIS and Remote Sensing using ERDAS Imagine software. Resource Scientists, Urban Planners, Researchers and Defence Specialists will find this course of particular interest.

Topics Covered

- The ERDAS Imagine Viewer;
- Visualizing Your Data;
- Creating Image Maps: Feature Extraction;
- GIS Analysis;
- Supervised & Unsupervised Classification;
- Spatial Modeler;
- Topographic Analysis;
- Feature Collection and Conversion;
- Knowledge Engineer.
